The Wave

(Abridged)

February 2011

Carl's Corner

We are studying the book of James in Sunday school. The topic of wisdom has come up. I

am not talking about being smart. Instead, I am talking about being wise. The older I get the more I have realized the smart thing has just passed me by. On the other hand, I continue to work on the wise part.

My grandfather never graduated from high school. By society's standards, he was not smart. By my standards, he was wise. He watched life's events and learned. He told that in life one

does not gather many true friends. During my sixty-three years, I have found his advice to be true.

My association with the North Texas Corvette Club has added significantly to the number of folks I call "friend". I am sorry we have not seen many of you in some time now. Life just gets too darn hectic these days. I would love to say things are slowing down; however, I know that will never happen. We look forward to seeing all of you soon. In the interim, please don't kick us off the island.
